

# M-office Landline & Skype Free Call Forward box

## Main Features

- Perfectly integrate landline, Skype and mobile phone calls
- Support personal Forward mode and office PBX mode
- Under Forward mode, incoming landline calls (or PBX analog extension calls) will be forwarded to either assigned mobile phone Skype for free or assigned mobile phone via SkypeOut™. M-office could be a good replacement of Skypeln service and very useful for areas without Skypeln™ service
- With M-office connecting with mobile employee's office extension line, colleagues just call the employee's extension number to save expensive mobile phone fee and make communication easy.
- After M-office is connecting with PBX analog extension line, employees can dial the extension and make any Skype or SkypeOut calls (Support Skype 8 soon)
- Assigned incoming Skype calls can be forwarded to any landline call(Avoid callee's reluctance to take your SkypeOut calls with an unfamiliar caller ID) with password protection (Support Skype 8 soon)
- Incoming landline calls can be forwarded to any Skype/SkypeOut call with password protection (Support Skype 8 soon)
- Under PBX mode, extension table and customized IVRs are supported for basic PBX application. Employees can pick up office incoming calls via own mobile phones
- Audio recovery button resolves Skype call party's problem to hear each other
- Support Skype speed dial and speed dial list can be exported for back up and imported for use
- Support M-office software online upgrade and latest software version check/ download
