

Features

- **Provide free internal voice communication for enterprise and enable free mobile office communication for employees by leveraging free Skype cloud service**
- **All enterprise offices use the same phonebook for Skype gateway and worldwide employees can call different offices using the assigned extension numbers**
- Employees out of office can call back office via Skype to reduce high mobile phone fee or international roaming fee. **Support sending Skype message for DTMF dialing before calling or during IVR after the call is in progress to resolve Skype's failure of sending DTMF or lack of Skype dial pad during Skype to Skype calls. Please refer FAQ 15**
- Make Skype calls through office extension phones. No need of microphones, speakers and Skype for every employee's PC
- One PCI-E card supports four independent Skype lines and up to 16 Skype lines are supported at one system
- Make a Skype World subscription program at USD \$13.99 per one month and you can call 63 countries for 10000 minutes within one month
- Three kinds of call out control methods
- One unique corporate Skype account/SkypeIn™ number for call in
- Support Speed Dial (up to 20 digits) for Skype/SkypeOut calls or direct SkypeOut calls for regular phone numbers
- Support one Speed dial for a Skype or a SkypeOut call with extension number auto-dial
- Support DID (Direct Inward Dial): After DID function is integrated with free Skype Button call or cheap SkypeIn service, Skype or SkypeIn incoming calls can be forwarded directly to the assigned office extensions for customer support without accessing company PBX IVR. It can replace the expensive 0800 call service
- DOD (Direct Outward Dial): With the DOD feature, employees can pick up one assigned Skype trunk line to reach one foreign factory or one remote office
- Support international busy tone
- Ease of use and user-friendly interface and web management
- Support public and private phonebook

- Support back up and import of phonebook and user information
- Default speed dial number “999999” for free Skype testing account
Echo123 to test whether SkyGW4C_S is functional properly or not
- Default speed dial number “999998” for recording voice as a customized way file like company welcome IVR
- Support popular PBXs
